

Virtual Teammate Portal — Client Guide

A step-by-step guide for clients, from your first login to running your virtual team day to day. This is the workspace where you manage the Virtual Teammates (VTs) assigned to your company — give them work, meet with them, track their output, and message your Client Success Manager (CSM).

1. Before you start

What you'll need

- The email address Virtual Teammate set your account up with.
- A temporary password. Your CSM or the Virtual Teammate team creates your account and

sends you a starting password — there is no public sign-up.

- A modern web browser (Chrome, Edge, Safari, or Firefox). The portal also installs as an app on your phone or computer (see §3).

The address

The portal lives at [/portal/](#) on the Virtual Teammate site — for example

<https://virtualteammate.com/portal/> . Bookmark it.

Forgot your password, or never received one? There is no self-service reset. Email your CSM (or support@virtualteammate.com) and they will reset it for you.

2. Your first login

1. Go to [/portal/](#) .
2. On the "**Log in to your dashboard**" screen, type your **Email** and **Password**.
3. Click **Log in**. Everyone — clients, CSMs, and VTs — uses this same screen; the portal

reads your role and sends you to the right dashboard automatically.

1. You'll land on your **Client Dashboard**. You're in.

Change your temporary password right away

1. In the menu, open **My Profile**.
2. On the right under **Change password**, enter your **Current password** (the temporary one), then a **New password** (at least 10 characters), and repeat it.

1. Click **Update password**.

You stay signed in until you log out or your session expires, so you won't need to do this every visit.

3. Getting around

The menu. Your navigation links live in the sidebar (on desktop) or behind the **Menu** button and the bottom tab bar (on mobile). You only ever see the pages your role can use. As a client, your menu is:

- **Dashboard** — your home overview.
- **My VTs** — the teammates working for you.
- **VT Assignments** — tasks you give your VTs.
- **Meetings** — scheduled calls.
- **Productivity Reports** — your team's daily reports and time tracking.
- **Messages** — one-to-one chat.
- **Request a VT** — ask for another teammate.
- **My Invoices** — your billing history.
- **Resources** — guides and downloads.
- **Notifications** — your alerts inbox.
- **My Profile** — your details and password.

The top bar. Shows the page title, a **bell** with your unread-notification count, your name and role, and a shortcut to your profile. On the Dashboard you'll also see an **Install app** button.

Install the app (optional but recommended). Click **Install app** (on the Dashboard or login screen) to add the portal to your phone's home screen or your desktop. Installed, it opens like a native app and can send you push notifications. On iPhone, use Safari's **Share** → **Add to Home Screen**.

4. Your dashboard

The Dashboard is your daily starting point. From top to bottom you'll find:

- **Your profile banner** — your company name, photo/cover, and your CSM and VT counts. Three quick-action buttons live here: **Assignment** (create a task), **Meeting** (schedule a call), and **Edit photos**.
- **Stats strip** — at-a-glance numbers: VTs assigned, active assignments, team hours this week, and meetings today.
- **Value Creation calculator** — shows the value your hired VTs have generated, with a

breakdown per teammate, plus a planner to estimate the cost of adding more.

- **Notifications, Today's Meetings, and Recent Messages** — three live cards. Each has an

All → or **Open** → link to jump to the full page.

5. My VTs — your team

Open: My VTs in the menu.

This page lists every Virtual Teammate assigned to your company as a card with their photo, name, role, department, and country. If it's empty, you'll see *"No Virtual Teammates assigned yet. Talk to your CSM about adding one to your team."*

Each card has three buttons:

- **Workday** — opens that VT's live workday tracker (if one is set up).
- **EOD** — jumps to their end-of-day reports.
- **Profile** — opens a full profile.

To view a full VT profile: click **Profile** (or the card). A window opens with their intro video, résumé, key details (department, role, EHR/software experience, English level, HIPAA certification, experience years), a summary, and who else is on the engagement. Close it with the **x**, by clicking outside it, or by pressing **Esc**.

6. VT Assignments — giving your team work

This is where you create tasks for your VTs, set priorities and due dates, and track them to completion.

Open: VT Assignments in the menu (or click **Assignment** on the Dashboard).

The views. A stats strip across the top shows **Total**, **Active**, **Overdue**, **Due today**, and **Completed**. You can switch between **List**, **Month**, and **Year** views using the tabs.

To create a task

1. Click **New task** (top right).
2. Fill in the **Title** (required) — e.g. *"Update January A/R aging report."*
3. Add a **Description** with context, links, or the outcome you expect (optional).
4. Choose who to **Assign to** — one of your VTs, or leave it Unassigned.
5. Set a **Priority** — Low, Normal, High, or Urgent.
6. Pick a **Due date** (optional).
7. Click **Create task**. The assigned VT is notified automatically.

To attach a file (after the task exists)

1. Open the task by clicking its title.
2. In the **Attachments** section, choose a file and click **Upload**.
3. Allowed types include PDF, Word, Excel, PowerPoint, CSV, TXT, ZIP, and images — up to

20 MB each.

To mark a task complete. In the List view, click the checkbox at the left of the task. The creator and assignee are notified. Click it again to re-open it.

To edit or delete. Use the pencil (edit) and trash (delete) icons on the task's row.

7. Meetings

Open: Meetings in the menu (or **Meeting** on the Dashboard).

The list shows each meeting's date and time, the attendees, the topic, the join link (Zoom, Google Meet, Teams, Webex, or phone), and its status. Times appear in your local timezone.

To schedule a meeting

1. Click **New meeting**.
2. Enter the **Meeting name** — e.g. *"Weekly catch-up."*
3. Your **Client account** is filled in for you.
4. Paste a **Meeting link** if you have one, and choose the **Call app**.
5. Set the **Day**, **Starts** time, and (optionally) **Ends** time.
6. Add **Notes** listing what you want to cover.
7. Under **Invite teammates**, check the CSMs and VTs you want on the call. Use the filter box

to find people quickly.

1. Click **Save meeting**.

To edit a meeting (including marking it Completed or Cancelled), click the pencil icon on its row.

8. Productivity Reports

Open: Productivity Reports in the menu.

This page has two tabs and a summary strip (VTs, live trackers, EOD report count, latest report date).

- **Workday Tracker** — a card per VT with a **Workday Tracker** button (opens their live time

tracker) and an **EOD Reports** button (jumps to that VT's daily reports).

- **EOD Reports** — your team's end-of-day reports. Each report shows the date, any KPI the VT tracked (target vs. achieved), what they got done (**Best work**), where they're blocked (**Help needed**), and what they'll tackle next (**Next focus**).

You can filter to a single teammate by clicking their **EOD Reports** button; click **Show all** to clear the filter. Clients view these reports — VTs are the ones who submit them.

9. Messages

Open: Messages in the menu.

One-to-one chat with your CSM and your VTs. The left column lists your contacts (with unread badges); the right is the conversation.

1. Pick a person on the left (search by name, email, or role if you have many).
2. Type in the box at the bottom and click **Send** — or press **Enter** (use **Shift+Enter**

for a new line).

New messages arrive without reloading the page and play a sound (toggle the bell icon to mute). Opening a conversation marks its messages as read.

10. Request a VT

Need more help? **Request a VT** lets you browse available teammates and ask for them.

Open: Request a VT in the menu.

1. Browse the suggested profiles. Each card shows the VT's role, department, country, experience, and a short summary.

1. Click **Request [name]** on anyone you'd like.
2. Your request goes to your CSM for review. Track its status — **Pending**, **Approved**, or

Declined — in the **Your requests** section, where your CSM may leave a note.

If there are no profiles to show, use **Message my CSM** and they'll source a tailored match.

11. My Invoices

Open: My Invoices in the menu.

Your billing history, synced securely from HubSpot. The top cards summarize **Total billed**, **Outstanding**, **Open invoices**, and **Paid invoices**. The table lists each invoice with its number, amount, status (**Paid**, **Pending**, or **Late/Overdue**), due and paid dates, and a **Pay / View** link where available.

Billing questions? Message your CSM — they can help.

12. Resources

Open: Resources in the menu.

Your starting point for guides and tools. You'll find the **Client Playbook** (a recommended first read), a searchable **Help Center** with category filters, and **Client Downloads** — practical PDFs for defining outcomes, delegating well, and reclaiming time.

13. Notifications & staying in the loop

Open: Notifications in the menu (or the bell in the top bar).

Your inbox of portal activity — task updates, meetings, and messages. Each item links to the relevant page.

- **Open** an item (which marks it read), **Mark as read**, or **Delete** it.
- **Mark all read** and **Delete all** are at the top.
- **Email notifications** — toggle this on to also receive an email copy of every alert.
- **Push on this device** — once you've installed the app, toggle this to get push

notifications.

14. My Profile

Open: My Profile in the menu.

- Update your **first name**, **last name**, **phone**, and **country**, then click **Save profile**.

(Email and role are fixed — ask your CSM if either needs to change.)

- Upload a **profile photo** and a **cover photo** (JPG/PNG/GIF/WebP, up to 8 MB; 1500×500

looks best for the cover), or paste an image URL.

- Change your **password** on the right (current password required; new one at least 10 characters).

15. Signing out & quick help

- **Log out** from the bottom of the menu — always do this on shared computers.
- **Forgot your password?** Message your CSM or support@virtualteammate.com for a reset.
- **Something missing or wrong** (a VT not showing, no invoices)? Your CSM is your first point of contact — reach them fastest through **Messages**.

Quick reference — common client tasks

I want to...	Go to	Then
Give a VT a task	VT Assignments	New task → fill in → Create task
Attach a file to a task	VT Assignments	Open task → Upload under Attachments
Mark a task done	VT Assignments	Click the checkbox on its row
Schedule a call	Meetings	New meeting → fill in → Save meeting
Read daily reports	Productivity Reports	EOD Reports tab
Message my CSM or VT	Messages	Pick the person → type → Send
Ask for another VT	Request a VT	Request [name]
Check billing	My Invoices	View / Pay link
Change my password	My Profile	Change password → Update password
